New smoking fetish videos added at [Smoking Flicks](#)

We've added two new smoking fetish movies at [Smoking Flicks](#) – the smoking movie streaming and video download site.

NEW RELEASE – NEW MATERIAL! The fifth IRL Platinum release, shot in HD, features three great shoots, all very different. Heavy smoking Adarra leads off as she wolfs down cork after cork in three outstanding scenes, with chaining, big snaps, huge exhales – and in the middle scene chaining multiples. Kelli and Carmen chat as they enjoy 120s with strong inhales and mouth exhales, and finally Meaghan starts in a glamorous black dress and then switches to a cute outfit for a pensive shoot: deep inhales, thick mouth and nose exhales, and lots of nice eye contact. This HD Platinum release has natural sound and some dialogue.

And a story-line title from Bob's Video, with title character Dr. Jamie (Jamie Lynn) narrates and acts out a story brought to her desk by Ronnie, a man haunted by his past and trying to get some answers about how his smoking fetish began.
